Director
Crown Point Emergency Management

Ken Abels
Deputy Director
Crown Point Emergency Management

****Press Release****

Crown Point Emergency Management

"Severe Weather Warning System Test"

On September 5, 2009, the City of Crown Point and the Crown Point Emergency Management will test its Severe Weather Warning system at 10:00am. This test will ensure proper operation of the system, and it also serves as a great opportunity for you and your family to practice your emergency action plan and teach all those in your home what to do in the event of severe weather or a Tornado. "We at the Crown Point EMA strongly encourage all families to practice your plan, and take the time to learn what to do in the event of a disaster or severe weather", stated Director Kelly Miller. "We strongly encourage each household to have a NOAA Weather Radio, and that it is easily accessible."

For more information on emergency preparedness and disaster planning please visit our preparedness website, www.crownpoint.in.gov/emaprep

If you have any questions about the Severe Weather Warning System, its operation, or general preparedness questions please contact the Crown Point Emergency Management.
